### MORE POTTERY IS NOW MADE

Value of Production and Importations for Last Year Was in Excess of \$46,000,000.

People are using and breaking more cups and saucers than ever before. Last year, according to figures compiled by Jefferson Middleton of the United States Geological survey, pottery to the value of \$46,059,634 was consumed in the United States. Of this sum the domestic product was valued at \$36,504,164 and the imported products at \$9,555,530. The output of pottery for the United States in 1912 showed an increase in value of \$1,985,604 over that for 1911. Every product except stoneware and yellow and Rockingham ware participated in the increase. The variety showing the largest absolute gain was sanitary ware, which increased \$870,797, and the largest proportional gain was in porcelain electrical supplies, which increased \$695,215. The value of white ware, including china but excluding sanitary ware and porcelain electrical supplies, was \$17,006,736 in 1912, compared with \$16,424,236 in 1911. China ware showed an increase of \$119,320, the value reported for 1912 being the highest ever recorded.

Ohio continued to be the leading pottery-producing state of the Union, reporting wares valued at \$15,508,735, or 42.49 per cent. of the total, an increase of \$733,470. Ohio's principal pottery product is white ware, which represents general household wares. New Jersey was the second largest pottery-producing state, the value of its product in 1912 being \$8,935,920, an increase of \$533,979. The principal pottery product of the state is sanitary ware. West Virginia was third in 1912, with ware value at \$3,365,166, or \$484,964 more than the value of the output in 1911. New York, Pennsylvania, Indiana and Illinois were fourth, fifth, sixth and seventh, respectively, in the value of output in 1912.

According to Mr. Middleton's report, which has been issued as an advance chapter from "Mineral Resources" for 1912, the pottery industry was in a high state of development during the year and the value of the pottery products marketed was the largest in the history of the industry. This was due partly to the general prosperity enjoyed by the country at large, but more especially to the steady improvement in the wares themselves in body, design, and decoration. American pottery is gaining a stronger hold on the market, becoming more popular every year. Many if not most of the best hotels and clubs in the country are now using large quantities of domestic china.

### More Than Engaged.

"A nice young couple in our crowd was married this summer," relates a nice young fellow in the same crowd, "and when they got back from their honeymoon they went to housekeeping in a certain apartment house in the east end. They had one servant—a little girl whose mother used to do the washing for her folks, and who, therefore, knew all about them, and came cheap and willing. Well, I went to call on them the other evening.

"The little maid met me at the door. She had known me when I called on the girl before she was married, so she smiled when she noticed who I was. But I was polite.

"Are Mr. and Mrs. Smith at home?" I asked.

"Yes, Mr. Brown," she said.

"Are they engaged at present?"

"Why, Mr. Brown!" cried the little girl, blushing, "they're married!"—Cleveland Plain

### "Ei" or "ie?"

Prof. Alfred E. Stearns, principal of the Phillips Andover academy, said at the recent alumni dinner in New York: "The easiest way in raising funds, as in other things, is the wrong way. I remember a man and his easy spelling rule.

"In Orange in my childhood I once complained of the difficulties of spelling. I said that 'ei' and 'ie' in such words as 'believe' and 'receive' always stumped me.

"Then this man patted me on the head and smiled and said:

"My boy, I will give you an infallible rule of 'ei' and 'ie'—a rule that in 47 years has never failed me.

"I expressed my delight and waited. The man resumed:

"The rule is simply this: Write your 'i' and 'e' exactly alike and put your dot exactly between them."

### Results of Japanese System.

Whatever criticism might be offered as to the methods of training or defects thereof in school or home, one undeniable truth stands out boldly: Despite its faults, or because of its virtues, Japan's system of education has produced men splendidly brave and noble, and women whose lives stand for all that is tender and beautiful in womanhood and motherhood.—Culinary.

### Catty.

"My husband never makes a fool of himself."

"Really?"

"Yes, really! Can you ever tell me of an instance in which he made a fool of himself?"

"How can you believe I am so anxious to hurt your feelings?"

### Equivocal.

"I hope these people you are helping live a life of virtue."

"I can answer for two of the virtues, at least, for they certainly live in hope that they are going to live on charity."

## The Studebaker "25" Touring Car

Is, we believe, in power, economy of maintenance, easy riding qualities and mechanical excellence, by far the best car ever offered at a low price.

The "25" is a thoroughly high grade automobile. In it will be found essentially the same design, materials and workmanship as in our high-priced cars, while, in performance under all kinds of road conditions, it is exceptionally efficient.

The motor is powerful, but at the same time very quiet. By means of an acetylene primer it is readily started, even in the coldest weather.

The "25" is remarkably simple to control and easy to handle. It can be turned in a small circle. It picks up speed wonderfully, and is an ideal car for swift progress through heavy traffic. It surpasses in hill climbing and in work on muddy roads.

Notice the complete equipment. The upholstery is deep, the painting and body work of the best. The seats are roomy. The "25" will give unqualified satisfaction.

## "Pittsburgh Perfect" Fence

The Fence made entirely of No. 9 Wire  
is the Cheapest you can buy. Read why

No. 9 wire is stronger and takes more galvanizing in proportion to its size than smaller wire. Fences made entirely of No. 9 wire last many years longer in proportion than lighter weight fences, cost no more to string, cause less trouble, are better at all times. These are technical facts. "Pittsburgh Perfect" "Jumbo"

Fences, made entirely of No. 9 wire in many styles and sizes, are the strongest made because of the Electrically Welded joints, most durable because of the high quality Open Hearth Wire and pure zinc galvanizing, and the most economical and satisfactory fences in the world. Specify "Jumbo" and save money.

### THE POISONER.

A human fiend who would enter our stores and markets by night and, after gorging himself, leave poison in all the remaining food, to spread suffering, disease and death throughout the community, would be execrated, pursued and torn to pieces by an outraged populace. Yet a useless insect, playing this role to perfection, is living among us constantly and is regarded merely as a mild source of annoyance, often as a subject of jest.
